New ESET 2015 Version - Try Free. Trusted by 100+ Million Users

### A set of Add-Ons for TradeStation

[AdChoices](#) [Day Trader](#) [Mac Support](#) [FX Trading](#) [Freeware](#)

Trader Support Add-On Utilities is a handy set of tools that were designed especially for TradeStation.

The Trader Support Add-On Utilities package also includes a set of sample charts you can use.

### Main features:

#### Buy/Sell Pressure Indicator (BSP):

- Smart Buy/Sell Pressure Indicator - detecting trend changes early

#### Rapid Response Smooth Average Indicator (RareAvg):

- The best of both worlds: Rapid Response combined with smooth transitions

#### Trend Reversal+Strength Indicator (TrendRev):

- Detect Trend Reversals and current trend strength

#### Robust Regression System:

- Detect Trends easily without the Noise

#### Advanced Normalized Momentum Indicator:

- Powerful trend reversal indicator

#### Advanced ZigZag Indicator:

- Identifies major price waves

#### Pivot Pattern Recognition Engine:

- Identifies sophisticated price/pivot patterns like gartley, butterfly etc

#### Identify and find the best Strategy / Trading Entry Points / Opportunities (FindTradingGems):

- Correlate best Trading opportunities with your indicators instantly

#### Strategy/Indicator Speak Extension (Speak):

- Now your Strategy or Indicator can also talk to you in real-time!

#### Export any Tradestation Data to your Spreadsheet (CSV Format):

- This indicator allows you to review and analyze any Data in your spreadsheet
